

Allergy/Sensitivity to Food Information

1. If your child has an Epi Pen then you will need to provide 2 Epi Pens before the first day of school. The second Epi Pen is used as a backup.
2. If your child has an allergy OR sensitivity to food (no matter how mild or severe) and **has been diagnosed by a Doctor**, then your child will need an *Allergy Action Plan* signed by your doctor. We have copies if you need them in the Preschool office.
3. For children with medications of any kind, there will be forms to fill out that allow Sonshine Preschool staff to administer them if needed. You can fill those out on *Classroom Visit Day*.
